# We ensure **Quality**

Siebert+Knipschild – this name stands for quality assurance in the application of polymeric materials in Germany and abroad. As an independent test institute we offer a broad range of services, e. g.:

- Mechanical materials testing
- Physical and chemical analyses
- 3D microscopy
- Long-term tests
- External monitoring programme
- Expert opinions

Die Siebert+Knipschild GmbH is a certification agency approved by the German Agency for Construction Supervision (DIBt). Our test lab and inspection office are officially accredited by the German Accreditation Agency (DAkkS).

We are at your disposal in three sites in Germany. Feel free to contact us.
